SUBJECT INDEX TO VOLUME 60

ABDOMEN, Phagedenic ulceration—its recognition and treatment, 304; Lymphangiomata of great omentum, 695
Abnormalities, uterine, Uterosalpingography by interrupted fractional injections, a modified and improved technique, 224; of kidney, Resection, 984
Absorption, colonic, Studies on, and excretion in segments of colon of man, 667
Acid meal, Mechanism by which acidity of, is reduced in stomach, 966
American College of Surgeons—
Address of welcome, Arthur W. Allen, 426
Address of retiring President, Background of American surgeon, William D. Haggard, 427
Approval of medical, surgical, and hospital equipment, instruments, and supplies, 610
Cancer, list of clinics approved to October 1, 1934, 592; symposium, curability of, 452–515
Candidates, Presentation of, class of 1934, 450
Case history honor list and prize award, 451
Clinical Congress of Surgeons, 1934, Transactions of, in Boston, 257–634; Boston committee on arrangements, 617; Preliminary announcement San Francisco meeting, 1935, 1152
Committee and Department reports—
Department of clinical research—Albert J. Ochsner Memorial, 591
Committee on the treatment of malignant diseases, 591
Registry of bone sarcoma, 596
Committee on fractures, 597
Medical service board, 600
Board on industrial medicine and traumatic surgery, 600
The 1934 hospital standardization survey, 609
Medical motion picture films, 613
State and provincial sectional meetings, 614
Credentials committee and committee on history reviews, 615
Library and department of literary research, 616
Community Health Meeting, 1934 Clinical Congress in Boston, ed. 424
Conference on traumatic surgery, 547–570
Fellowship address, Medicine and public service, 446
Fracture oration, Unsolved fracture, Kellogg Speed, 341
Fractures, Symposium on treatment of, 516–546
Franklin H. Martin and, 902
Honorary fellows, Presentation of, 450
Hospitals, conducting approved cancer clinics, 593
Hospital Standardization, Report of the 1934 conference in Boston, 618–634
Inaugural address, Efficient surgical service for the whole community, 432
Instruments and supplies, list of approved, 610
Murphy oration, Principles of gastric surgery, Donald C. Balfour, 257
Presidential Address, Cancer clinics and cancer services in general hospitals, Robert B. Greenough, 441
Standardization of clinical laboratories, 592
Anæsthesia, Some principles of local, 675
Anastomosis, Electrosurgical, aseptic intestinal, 1082
Aneurism, popliteal, Sympathectomy as preliminary to obliteration of, with suggestion as to sympathetic block in cases of ligature, suture, or thrombosis of large arteries, 926
Ankle, Function of long plantar muscles, 150; Acute fractures, 535
Antrum, Curability of malignant tumors of upper jaw and, 971
Anus, Melano-epithelioma and hæmangio-endothelioma of, 74
Appendicitis, acute, differential diagnosis, Blood sedimentation test and its value in, 157
Arteriography, Congenital arteriovenous fistulæ of extremities visualized by, 978
Arthritis, Treatment of acute suppurative; report of 36 cases treated by operation, 86

BACK injuries, 557
Baker Memorial, Experience with hospital for people of moderate means, 627
Bile acid, Factor in gall-bladder disease, ed. 239
Bile ducts, Spontaneous rupture of common; sequel of choledochostomy, 746
Biliary ducts, Histology of, and its correlation with symptomatology of common duct stone, 775
Birth fractures, of femur, 1098
Bladder, Idiopathic dilatation of system of evacuation, ed. 114; Some remarks on five year cures in malignant tumors, 479; Standard treatment of malignant tumors of, 513; Papilloma and carcinoma of, among dye workers, 555; Cystectomy, method of retroprostatoseminal vesiculocystectomy, 685; Late complications in irradiation treatment of cancer of cervix, 763; Preperitoneal layer—its gynecological application, 941; Carcinoma of, ed. 1017
Bleeding tendency, in jaundice, 781; Effect of viosterol in jaundice, 785
Bleeding time, Duke method, Bleeding tendency in jaundice, 781; Effect of viosterol in jaundice, 785
Blood, Reaction of lipids in leucocytes to fever and infection, 205; loss of, Surgical shock, ed. 750; coagulation of, Bleeding tendency in jaundice, 781; Effect of viosterol in jaundice, 785
Blood chemistry, Hyperparathyroidism; clinical diagnosis and operative technique of parathyroidectomy, 1033
Blood pressure, Surgical treatment of hypertension, ed. 115
Blood sedimentation test, and its value in differential diagnosis of acute appendicitis, 157
Blood supply, Vascular changes in retina, 571
Blood vessels, Study of lesions in vascular system in fatal cases of chronic nephritic toxæmia of pregnancy, malignant nephrosclerosis, 1; extension of infection via, Infections of lip and face, 277; Congenital arteriovenous fistulæ of extremities visualized by arteriography, 978; varicose veins, thrombophlebitis and embolism; with special reference to the danger of pulmonary embolism in injection treatment of varicose veins, 996; peripheral, Studies on peripheral vascular phenomena, IV, Finger volume changes in patient showing Raynaud's phenomena, 1077; disease of, Peripheral nerve block in obliterative vascular disease of

lower extremity; further experience with alcohol injection or crushing of sensory nerves of lower leg, 1106
Bone, tumors of, Studies in bone sarcoma,—III, experimental and pathological study of rôle of the periosteum in formation of bone in various primary bone tumors, 30; destruction of, in arthritis, Treatment of acute suppurative arthritis; report of 36 cases treated by operation, 86; Malignant diseases in first three decades of life, 167; Some remarks on giant cell tumor of bone, 318; long tubular, Operative treatment of fractures of, 518; temporal, Cellular character of 100 temporal bones, clinical and surgical significance, 582; temporal, Pathways of approach to petrous pyramid, 590; Closure of chronic osteomyelitic cavities by plastic methods, 853; necrosis of, Sequences of experimental bacterial infarction of femur in rabbits, 913; changes in, Hyperparathyroidism; clinical diagnosis and operative technique of parathyroidectomy, 1033
Bone sarcoma, Studies in,—III, experimental and pathological study of rôle of the periosteum in formation of bone in various primary bone tumors, 30; Registry of, 596
Brain, Malignant diseases in first three decades of life, 167; Tuberculous abscesses of, secondary to tuberculosis of cæcum, 229
Brain tissue, changes in, Recent developments in diagnosis of meningitis, 583
Brain tumors, Registry of, Concerning, cor. 128
Brainard, Daniel, History of Rush Medical College, 121
Branchia, Malignant diseases in first three decades of life, 167; Branchial carcinoma; lateral cervical neoplasm, 703; Congenital cysts and fistulæ of the neck, ed. 748
Breast, Malignant diseases in first three decades of life, 167; Cancer of breast is curable, 464; Five year cures of cancer of, and of melanoma, 465; Cancer of, 472; Cancer of, is curable, 474; Carcinoma of, 476; Some remarks on five year cures in malignant tumors, 479; Unilateral carcinoma of, treated by surgical operation and radiation, 499
British National Health Insurance, Efficient surgical service for whole community, 432
Burns, Repair of defects resulting from full thickness loss of skin from, 379

CÆCUM, Tuberculous abscesses of brain secondary to tuberculosis of, 229
Cancer, Factors causing delay in operative therapy of carcinoma, 45; Atypical growth induced in cervical epithelium of monkey by prolonged injections of ovarian hormone combined with chronic trauma, 129; Malignant diseases in first three decades of life, 167; Curability of cancer, 452; survivals, without recurrence, of from 5 to 25 years, 453; Report of the follow-up results among 596 consecutive patients treated radically for malignant disease in Henry Ford Hospital from 1916 through 1929, 454; Some, cures, 457; 5 year cures of, in Detroit Hospitals, 460; 5 year, cures at St. Luke's Hospital, 461; of breast is curable, 464; 5 year cures of, of breast and of melanoma, 465; 5 year cures of, of stomach, 467; is curable, 469; of cervix, 470; of breast, 472; of breast is curable, 474; Carcinoma of breast, 476; Primary, of vulva, vagina, and female urethra, 5 year results, 477; Some remarks on 5 year cures in malignant tumors, 479; 5 year cures of, of rectum by radical abdominoperineal excision, 481; Malignant diseases of mouth, pharynx, and larynx, 5 year cures, 483; 5 year survivals in lymphatic tumors, 485; Surgical treatment of, of stomach, 486; Radium therapy of carcinoma of cervix uteri, standard treatment in use in cancer clinic of the Woman's Hospital, New York, and combined statistical report of 5 and 10 year results—series 1919–1929, 495; Unilateral carcinoma of breast treated by surgical operation and radiation, 499; Standard methods of treatment of, of lip, by surgery and radiation, 505; The standard treatment of malignant tumors of bladder, 513; clinics approved to October 1, 1934, 592; Precancerous and carcinoid lesions of cervix uteri, with comments on the Schiller test, 635; Prognosis of thyroid, 861
Cancer clinics, and cancer services in general hospitals, 441; Hospital list with approved, 593; Tumor clinic records, 630
Cardiospasm, Œsophageal surgery, 417
Carpal scaphoid, Fracture of (navicular), 529; Bone graft for non-union of, 540
Cartilage plates, Sequences of experimental bacterial infarction of femur in rabbits, 913
Cataract incision, Closure of, 573
Catgut, Infection in clean operative wounds; 9 year study, 264
Catgut sutures, Present status of sterility of surgical, with particular reference to American made catgut, 202
Cerebrospinal fluid, Recent developments in diagnosis of meningitis, 583
Charity Hospital of Louisiana, 1024
Childbirth, Variations of female pelvis in relation to labor, 680
Children, malignancy in, Lymphangiomata of great omentum, 695; diseases of, Teratoma of spinal cord, 1137
Choledochostomy, Spontaneous rupture of common bile duct, sequel of, 746
Clinical Congress, 1934, in Boston, ed. 424
Coccyx, Origin of pilonidal sinus, with analysis of its comparative anatomy and histogenesis, 137; Mechanics of physical signs in lower trunk injuries, 802
Coffman, L. D., Medicine and public service, 446
Colles' fracture, 542
Colon, Idiopathic dilatation of system of evacuation, ed. 114; Studies on absorption and excretion in segments of colon of man, 667
Common duct stone, Histology of biliary ducts and its correlation with symptomatology of, 775
Compensation cases, Mechanics of physical signs in lower trunk injuries, 802
Cystectomy, a method of retroprostatoseminal vesiculocystectomy, 685

DEATH, Cause of, due to liver autolysis, 769
Delay, cause of, in cancer cases, Factors causing delay in operative therapy of carcinoma, 45
Diabetes, Surgery of gangrene of extremities, with study of 171 cases from records of New Orleans Charity Hospital, 840
Diagnosis, Use of vital staining and wet films in, of lesions of cervix, 1072
Disease, Hirschsprung's, Idiopathic dilatation of system of evacuation, ed. 114; Raynaud's, Surgical treatment of hypertension, ed. 115; Hodgkin's, Malignant diseases in first three decades of life, 167; Buerger's, Surgery of gangrene of extremities, with study of 171 cases from records of New Orleans Charity Hospital, 840; von Recklinghausen's, Hyperparathyroidism, clinical diagnosis and operative technique of parathyroidectomy, 1033; Raynaud's, Studies on peripheral vascular phenomena,—IV, finger volume changes in a patient showing Raynaud's phenomena, 1077; intra-abdominal, differential diagnosis in, Mesenteric cysts, a brief discussion and report of 3 cases, 1128
Diverticula, of duodenum, 946
Diverticulitis, Diagnosis and treatment of, and diverticulosis, 370

Diverticulum, gastric, Diverticula of stomach, 106
Drainage, of peritoneal cavity and intestinal obstruction, ed. 1016
Dukes bleeding time, Bleeding tendency in jaundice, 781
Duodenum, Diverticula of, 946; Mechanism, symptoms, and treatment of hernia into descending mesocolon (left duodenal hernia), plea for a change in nomenclature, 1052
Dye workers, Papilloma and carcinoma of bladder among, 555
Dysphagia, Statistical study of diseases of œsophagus, 394

EAR, Recognition and treatment of one type of Ménière's disease, 577; Acute infections of middle, and mastoid, 578; Advantages of conservative treatment in acute mastoid disease, 579; Cellular character of 100 temporal bones, clinical and surgical significance, 582
Early American Hospitals, Women and Children's Hospital, 753; Charity Hospital of Louisiana, 1024
Early American Medical Schools, History of Rush Medical College, 120; Faculty of medicine of McGill University, 242; Medical faculty of Laval University, Quebec, 1149
Elbow, Operative treatment of fractures of long tubular bones, 518
Electrolytes, Jejunostomy for restoring, lost in persistent vomiting, ed. 880
Embolism, pulmonary, Thrombophlebitis and, with special reference to danger of, in infection treatment of varicose veins, 996
Embryology, Normal human ovum in primitive streak stage (approximately 18½ days), 657; Branchial carcinoma; lateral cervical neoplasm, 703
Emergencies, Care of, 633
Empyema, tuberculous, Surgical treatment of, 216
Endocrine glands, Endocrine mechanisms in certain functional gynecological disorders, 330
Energy, background of the genesis of gall stones and of prevention of immediate postoperative shock and of later digestive disturbances, 818
Epiphyseal cartilage plates, Sequences of experimental bacterial infarction of femur in rabbits, 913
Epithelium, cervical, Atypical growth induced in, of monkey by prolonged injections of ovarian hormone combined with chronic trauma, 129
Ergot, Study of action of, on human puerperal uterus, 190
Excretion, colonic, Studies on absorption and, in segments of colon of man, 667
Extremities, Congenital arteriovenous fistulæ of, visualized by arteriography, 978
Eyes, Simplification of procedure in plastic surgery about, 571; Clinical studies in slit-lamp ophthalmoscopy, 572; Closure of cataract incision, 573; Sympathetic ophthalmia, ed. 1145
Ewing tumor, Studies in bone sarcoma,—III, experimental and pathological study of rôle of periosteum in formation of bone in various primary bone tumors, 30

FACE, Infections of lip and, 277; Experiences with tubed pedicle flaps, 291
Fallopian tubes, Subtotal versus total hysterectomy, 102; Uterosalpingography by interrupted fractional injections, modified and improved technique, 224; Sterility, with special reference to surgical possibilities, 352
Fascia, Preperitoneal layer—its gynecological application, 941
Feet, Peripheral nerve block in obliterative vascular disease of lower extremity, further experience with alcohol injection or crushing of sensory nerves of lower leg, 1106
Femur, Unsolved fracture, 341; Operative treatment of fractures of long tubular bones, 518; Positive treatment for fractures of shaft of, preliminary report emphasizing ambulatory treatment, 848; Sequences of experimental bacterial infarction of, in rabbits, 913; Birth fractures of, 1098
Fever, Reaction of lipids in blood leucocytes to, and infection, 205
Fibula, 1,000 consecutive fractures of both bones of leg, 516; Operative treatment of fractures of long tubular bones, 518
Films, wet, Use of vital staining and, in diagnosis of lesions of the cervix, 1072
Fingers, Congenital arteriovenous fistulæ of extremities visualized by arteriography, 978
Finger volume, Studies on peripheral vascular phenomena, —IV, changes in patient showing Raynaud's phenomena, 1077
Flaps, tubed pedicle, Experiences with, 291
Fluid, loss of, Surgical shock, ed. 750
Foot, Function of long plantar muscles, 150
Fractures, Unsolved, 341; 1,000 consecutive, of both bones of leg, 516; Operative treatment of, of long tubular bones, 518; of jaws, 531; Acute, 535; report of committee on, 597; of humerus, end-results from treatment, 730; ambulatory treatment of, Positive treatment for, of shaft of femur, preliminary report emphasizing ambulatory treatment, 848; Birth, of femur, 1098
Fracture oration, Unsolved fracture, 341
Free clinic, Out-patient Department, 634

GALL bladder, New methods in gall-stone surgery, 55; disease of, Bile acid factor in, ed. 239; Spontaneous rupture of common bile duct, sequel of choledochostomy, 746; Histology of biliary ducts and its correlation with symptomatology of common duct stone, 775
Gall stones, New methods in, surgery, 55; Energy background of genesis of, and of prevention of immediate postoperative shock and of later digestive disturbances, 818
Gangrene, of extremities, Surgery of, with study of 171 cases from records of New Orleans Charity Hospital, 840
Gastro-intestinal tract, Malignant diseases in first three decades of life, 167; Mechanism, symptoms, and treatment of hernia into the descending mesocolon (left duodenal hernia), a plea for change in nomenclature, 1052
Genito-urinary tract, Malignant diseases in first three decades of life, 167
Glucose feeding, Alterations in liver glycogen following thyroid, iodine, and, 27
Glycogen, liver, Alterations in, following thyroid, iodine, and glucose feedings, 27
Gold salts, Intravenous treatment of diseases of uveal tract, 572
Gynecology, Endocrine mechanisms in certain functional gynecological disorders, 330; Sterility, with special reference to surgical possibilities, 352

HÆMANGIO-ENDOTHELIOMA, Melano-epithelioma and, of anus, 74
Hæmatopoietic system, Infections of lip and face, 277
Hair follicles, Activity of, with reference to pregnancy, 1092
Hand, infections in industrial accidents, 568; Infections of, ed. 879; Congenital arteriovenous fistulæ of extremities visualized by arteriography, 978; Studies on peripheral vascular phenomena,—IV, Finger volume changes in a patient showing Raynaud's phenomena, 1077

Hernia, Mechanism, symptoms, and treatment of, into descending mesocolon (left duodenal hernia), plea for change in nomenclature, 1052
Hip, Mechanics of physical signs in lower trunk injuries, 802
Histamine, Function of long plantar muscles, 150
History, medical, Background of American surgeon, 427
Hoarseness, Cancer of larynx, intrinsic, its surgical cure, 589
Holmes, Andrew F., Faculty of medicine of McGill University, 242
Hormones, ovarian, Atypical growth induced in cervical epithelium of monkey by prolonged injections of ovarian hormone combined with chronic trauma, 129
Hospital, standardization of, Efficient surgical service for whole community, 432; New deal in, 618; standardization in, Hospital in retrospect and introspect, 620; service, Proper interpretation of, 621; management of, Future trends in, and service, 621; Principles governing relation of radiologists to, 622; Standards for obstetrical service in, 623
